Plot of norm_ab sum and rank of 470 MS proteins

GO_term

- chemokine activity
- a chemokine receptor binding
- cytokine activity
- a cytokine receptor activity
- hematopoietic progenitor cell differentiation
- a hematopoietic stem cell differentiation
- hematopoietic stem cell migration
- a hematopoietic stem cell migration to bone marrow
- hematopoietic stem cell proliferation
- a negative regulation of hematopoietic stem cell differentiation
- regulation of hematopoietic stem cell differentiation
- a regulation of hematopoietic stem cell proliferation
